Dear Ms. Rosmizah,

**20TH ASIA OIL & GAS CONFERENCE (AOGC 2019)
23 - 25 JUNE 2019 | Kuala Lumpur, Malaysia**

Established in 1996, the biennial Asia Oil & Gas Conference has grown to become the region's most anticipated oil and gas event. It is highly regarded as a platform where energy professionals and industry shapers convene and engage in strategic discussions to identify solutions in propelling the industry forward.

The conference has garnered strong participation from industry experts, key decisions makers, thought leaders and top management executives from the oil and gas industry. It is anticipated that the upcoming AOGC 2019 will gather attendees from more than 50 countries across every spectrum of the oil and gas value chain.

It is with great pleasure to inform you that PETRONAS will once again host the Asia Oil & Gas Conference (AOGC) 2019 from 23 - 25 June at the Kuala Lumpur Convention Centre. Through a stimulating conference programme, an impressive speaker line-up and quality exhibition environment, the 20th AOGC is poised to attract even greater participation, elevating the stature of the conference series.

For the first time in its long-standing history, AOGC will also be introducing dedicated country pavilions to showcase innovative products and creative solutions from various countries globally. On behalf of the event host, we would like to invite Oil & Gas companies from Turkey to represent its country through exhibition Country Pavilion. As an exhibitor, you will gain the opportunity to meet and deal with the industry's best explorers, producers, suppliers and innovators.

It would indeed be an honour to have you and your esteemed company as part of this prestigious Event. Based on the feedback from participants of previous AOGC series, the Event was a conducive platform to exchange strategic insights and explore future prospects to advance the oil and gas industry.

We are pleased to append herein a few copies of the AOGC 2019 prospectus which we hope you can disseminate and promote this event to your colleagues, employees and associates.

ASIA OIL & GAS
CONFERENCE
